Application Filed: 12/16/2015
45 Day Expiration: 1/30/2016

ITEM #1

GENERAL INFORMATION:

The applicant seeks approval for:

Certificate of Appropriateness for the connection of two separate balconies, forming one, larger balcony using metal pickets to match existing

STAFF RECOMMENDATION:

The Historic Preservation Office recommends that the application be postponed until a complete elevation of the new feature is submitted based on the following recommendations:

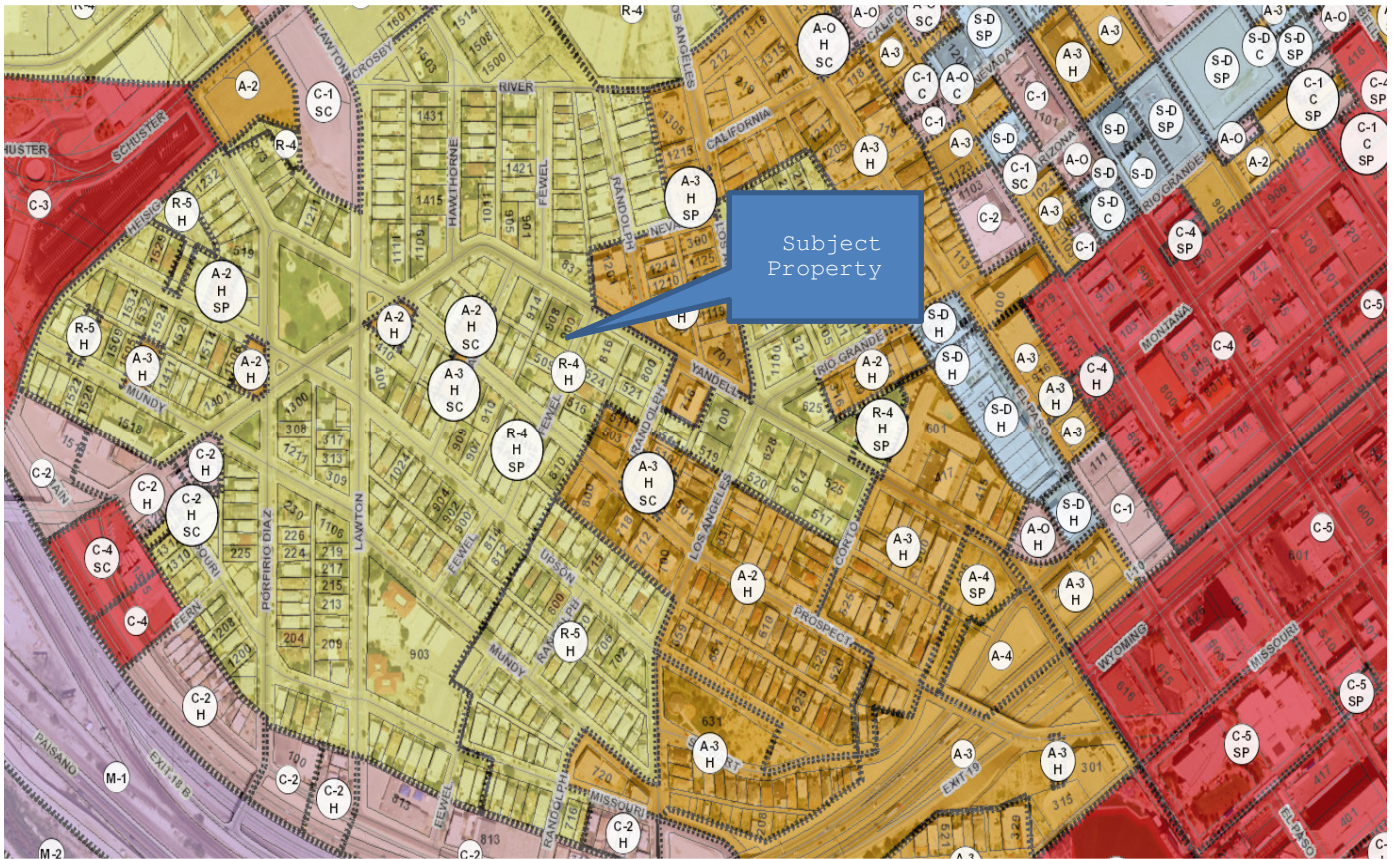

The Design Guidelines for El Paso's Historic Districts, Sites, and Properties recommend the following:

- *Are the original architectural details such as scroll work, balcony and porch railings, columns and cornice molding retained, repaired or replaced to match the originals?*
- *Site features that may exist on a property are swimming pools, pergolas, terraces and gardens and every effort should be made to retain those features that remain.*
- *If replacement is necessary, replace only the deteriorated element to match the original in dimension, proportion, material, texture, and detail.*

The Secretary of the Interior's Standards for Rehabilitation recommend the following:

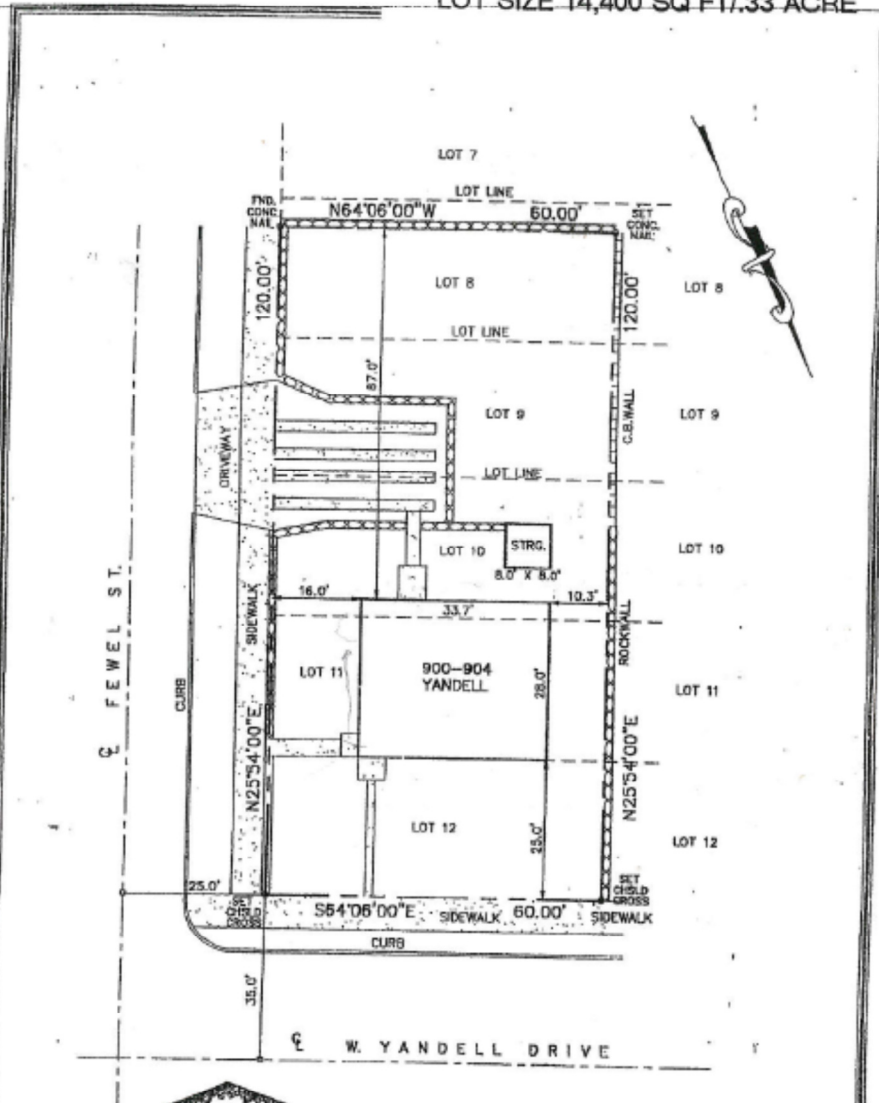

- *Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.*
- *Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials.*
